Say Goodbye to Crumbs & Dirt
4 levels of cleaning suction (max. 2100Pa), enabling you to pick and choose the appropriate level based on the messiness on the floor.

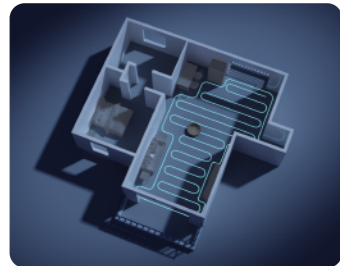

Extra Clean with Mopping
Sometimes, the messiness in life requires more than just vacuuming. Easily switch to the water tank (included in the package) to enhance cleaning by mopping.

Scheduled Cleaning
Self-adjustable cleaning cycles help keep your house fresh and clean every day, or just in time before your guests arrive.

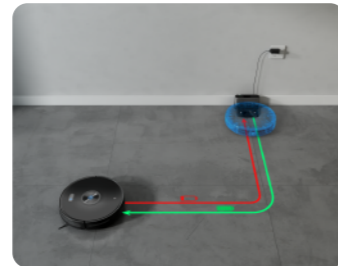

When & Where
Luckily, the Robot won't charge you by the hour or mileage. When docked, you can check out when and where your Robot had been running around on Cleaning History with a map.

Row by Row Cleaning
Row by row cleaning pattern ensures greater coverage and cleaner floors.

Multiple Cleaning Modes
Multiple cleaning modes (Auto, Edge, Spot, Random) cater to individual, residential needs.

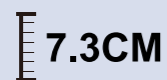

Auto-Return to Charging Station
The Robot automatically returns to the dock when it has finished cleaning or needs a power boost.

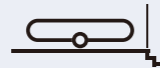

Remote Control
Complete all your cleaning chores on demand, right from your smartphone or by using your voice.
